Grey Mangrove with peg roots

Boardwalk through the mangroves

Share the path

People use the pathway for a multitude of reasons. Some are taking a leisurely stroll or bike ride to take in the peaceful surroundings, while others are cycling to a destination as fast as possible.

This 10km section of cycle path has become a choice training route due to the wide, smooth surface and length.

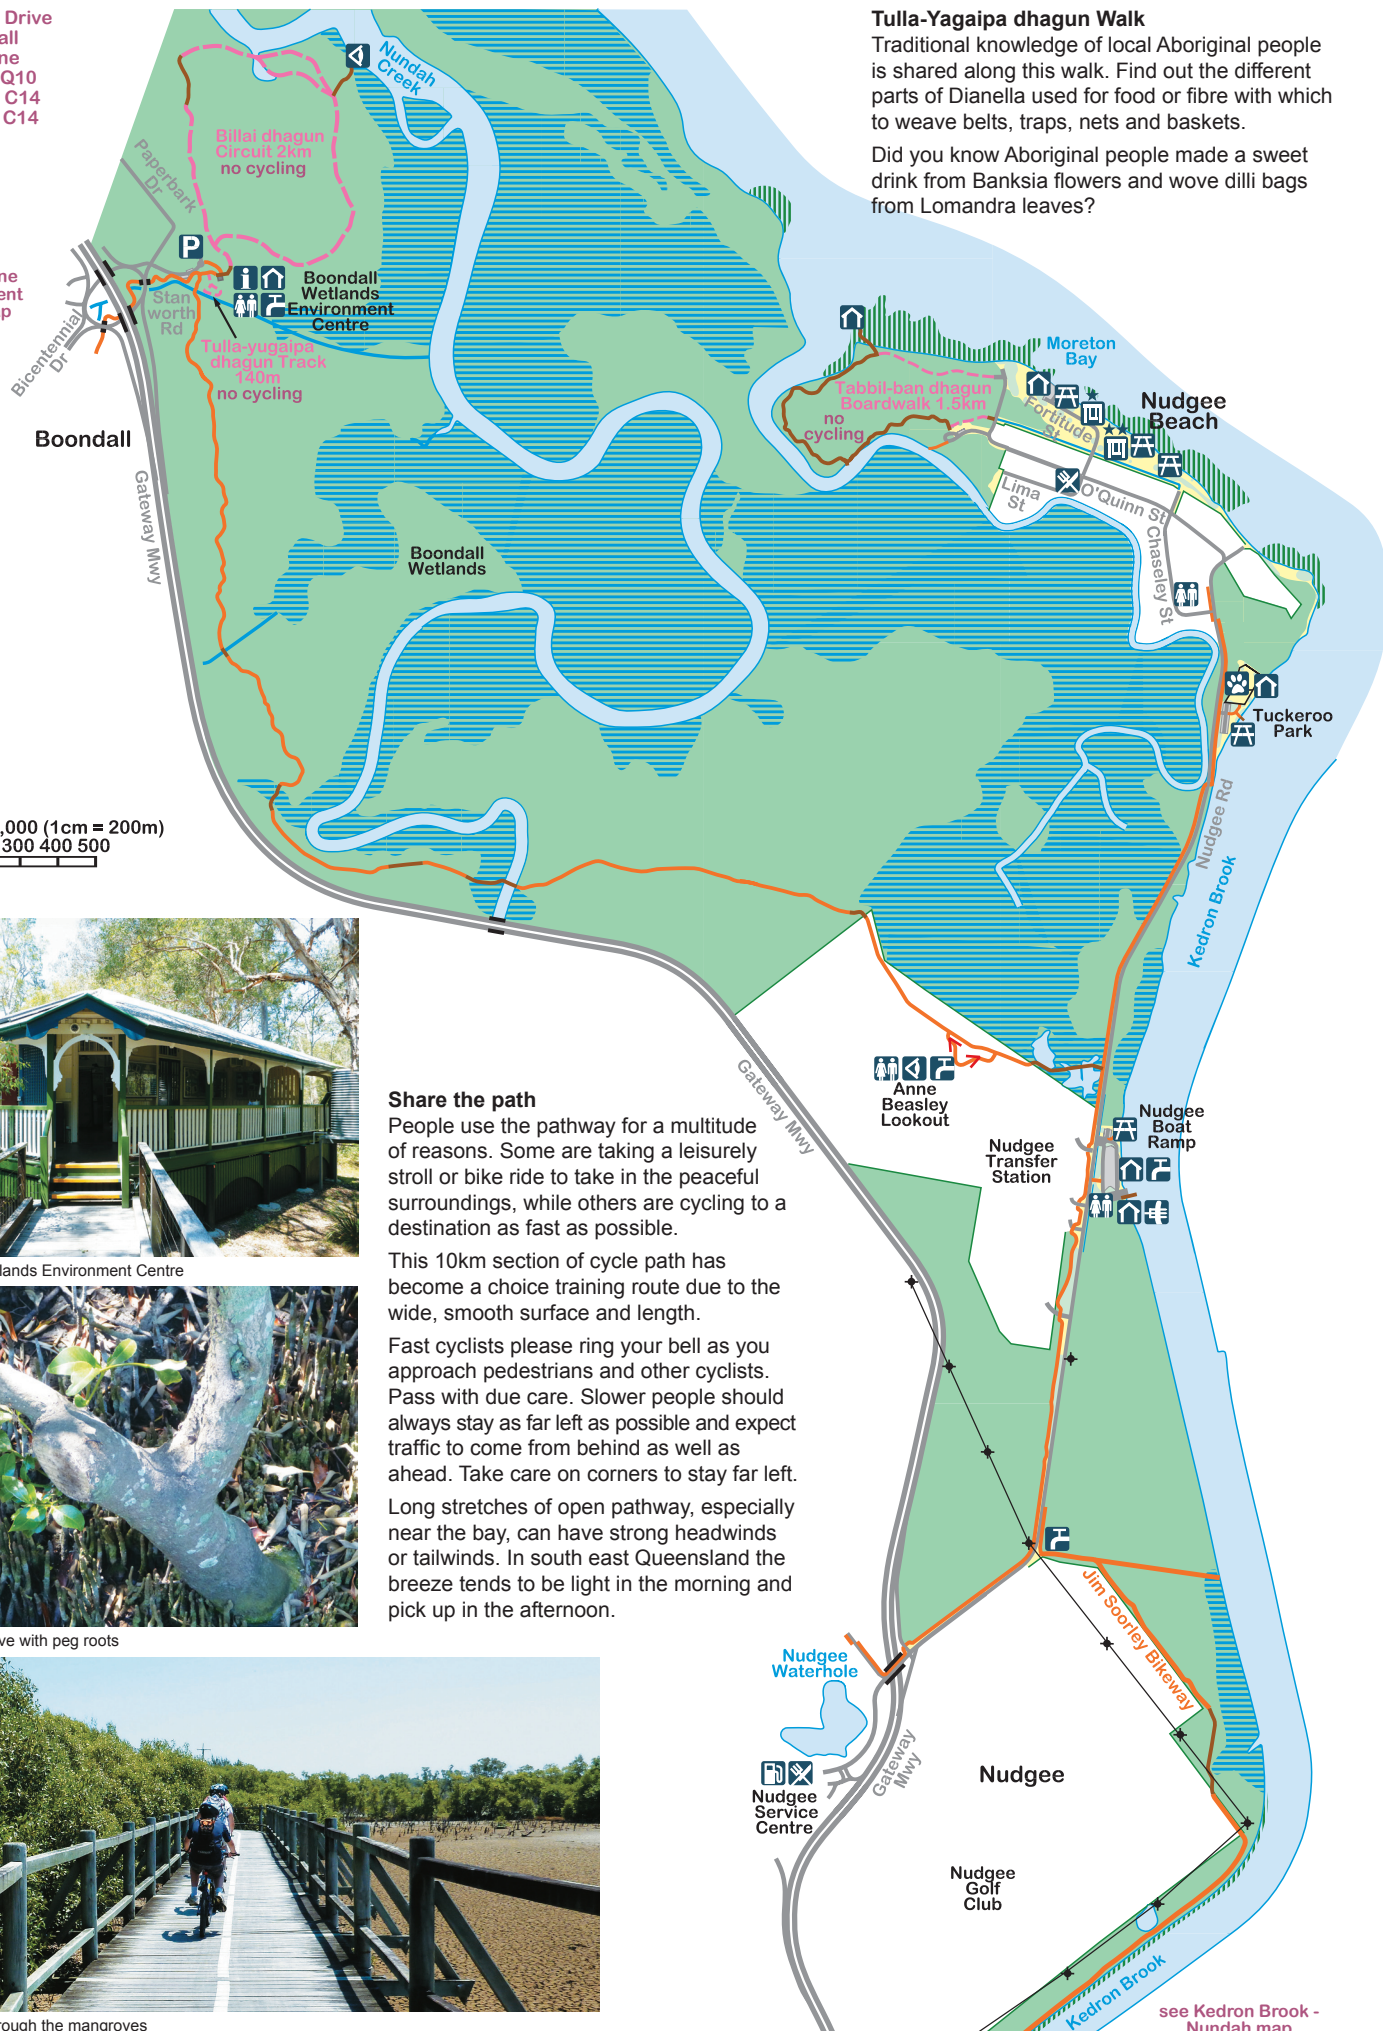

Fast cyclists please ring your bell as you approach pedestrians and other cyclists. Pass with due care. Slower people should always stay as far left as possible and expect traffic to come from behind as well as ahead. Take care on corners to stay far left.

Long stretches of open pathway, especially near the bay, can have strong headwinds or tailwinds. In south east Queensland the breeze tends to be light in the morning and pick up in the afternoon.

Tulla-Yagaipa dhagun Walk

Traditional knowledge of local Aboriginal people is shared along this walk. Find out the different parts of Dianella used for food or fibre with which to weave belts, traps, nets and baskets.

Did you know Aboriginal people made a sweet drink from Banksia flowers and wove dilli bags from Lomandra leaves?
