

Wondai to Kingaroy 30km

This section of the rail trail could be called the historic pub tour because beside many former train stations there is a hotel still operating.

In Wondai there are two to choose from. On the lower side of the tracks is the Wondai Hotel opened in 1905 and on the high side is the Hotel Cecil. Both offer lunch, dinner and accommodation as well as live entertainment.

The Hotel Cecil has been operating in Wondai since 1911.

“The Hotel Cecil is a wonderful old building with a classic 12 foot balcony and high ceilings. Established in 1911 the pub is still the original building with the original ornate staircase. A variety of accommodation is available including a backpacker style dorm.”

Tingooro pub

“The Tinny Pub was established in July 1900. The second owner, Mr Herb Night, won the hotel in a card game played on the pub verandah in 1939 and owned it until 1997. What an interesting history!”

Another interesting story is Jimmy Barnes played to an audience of 3000 in the park opposite the pub back in 2006.

Wooroolin pub

“The Grand Hotel is aptly named because it is a grand old building. A classic example of early Queensland architecture (c. 1916) with its 12 foot verandahs and ornate woodwork.”

The Grand also offers breakfast and takeaways, onvenient food for rail trailers staying in the campground opposite.
