this section very steep extremely rough no B lines

many hazardous waterbars on steeper sections of road

Opened in 2014, 'Old Tambo' is partly a Black Diamond downhill-only trail for experienced riders only. Built by well respected Australian track builders, Trailworx and Trailscapes, it features fast flowing corners, rollers, dips, gaps and rest areas before the tight and technical bermed corners, drop-offs and very steep grades at the end.

The trail increases in difficulty as it descends; all-mountain or enduro bikes, full-face helmets and body armour are recommended.

The descent is approximately 3km and will take experienced riders 10 minutes and those new to the trail will take about 20 minutes. Regardless of ability, always check out the trail on the first run to become familiar with features or to find hazards such as fallen branches.

It is possible to push back up the fire road beside the trail, but it is very steep and more than 300 vertical metres is a lot of climbing. Most riders will organise with mates to shuttle back in a vehicle.

Please respect neighbouring residents by parking away from houses and keeping noise to a minimum.
