

Plunkett Regional Park

Horse Trail signage on Powerlink Break

Where to Mountain Bike in South East Queensland

From the Fifth Edition of the bestselling book available online at www.organisedgrime.com.au and from shops throughout SE QLD

Rocky Brays Break

Patches of fine sand

Loamy soil

This sandstone country is captivating. Sandstone Break and Cave Track pass impressive rocky escarpments and giant boulders. On Edge Trail climbs on sheets of sandstone (slickrock) to the summit of Wickhams Peak which has views to the CBD of Brisbane and west over the new subdivision of Yarrabilba.

While Grass Tree Break is sandy and loamy, Boundary Break is virtually sandstone steps and sheets the whole way, a challenge to ride down and more so to ride up.

Trails underneath the powerlines lead to the eastern network, but the only connection to Flesser Break is Brays Break. Steep then very steep with baby head rocks, this trail is very rough riding.

Highpoint and Main Break form a loop, otherwise the other trails exit to roads which all have 80 km per hour speed limits and are somewhat narrow and dangerous for cyclists.

Improvements to the trail network are being planned and in the future Yarrabilba housing development will include recreation trail links.

View to the west overlooking Yarrabilba from the power pylons
